

# Manufacturer's instruction (Version 08-2022)

## Polo-shirt C type - Ref.: Polo C-MC / Polo C-ML

This category 2 PPE complies with EN ISO 14116:2015 and meets the essential health and safety requirements of EU Regulation 2016/425. The EU Declaration of Conformity can be downloaded from our website: <https://altorisk.com/content/13-documentations>. This double-sided knitted polo shirt is made of a flame-retardant fibers blend. It protects in the event of accidental, short-term contact with flame, in conditions that do not present a significant thermal risk and in the absence of other types of heat. It must be worn in conjunction with all appropriate PPE providing heat and flame protection to the rest of the body. The double-sided knitting allows good evacuation of perspiration and reduction of heat stress.

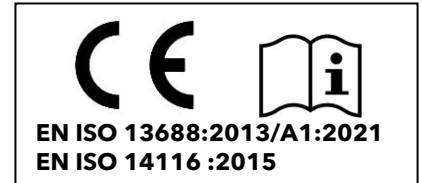

### Material in accordance with index 3 / 25H / 40 of EN ISO 14116

**3** Highest flammability rating 3 out of 3

**25H** Household cleaning 25 cycles

**40** Washing temperature 40°C

The performance was checked after 25 household cleaning at 40°C.

### USE

This product should be worn next to the skin. Materials that can conduct heat should not be worn next to the skin. It is therefore necessary to put on and adjust the garment to the body and to close it properly. The zipper must be closed completely and the flap must be properly closed over the zipper.

It is cut to fit both men and women and is available in several sizes. Make sure you wear the product that fits your body type.

Sizes	72	80	88	96	104	112	120	128	136						
	XXS	XS	S	M	L	XL	2XL	3XL	4XL						
Men Chest girth	64-72	72-80	80-88	88-96	96-104	104-112	112-120	120-128	128-136						
Sizes	34	36	38	40	42	44	46	48	50	52	54	56	58	60	62
Women Bust girth	76	80	84	88	92	96	100	104	108	112	116	120	124	128	132
	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-
	80	84	88	92	96	100	104	108	112	116	120	124	128	132	136

**WARNING:** consider a withdrawal of 3 to 5% on average on the product

Be sure to inspect your polo shirt before and after each procedure or training exercise.

Any damaged polo shirt (burns, holes, tears) should be subject to a PPE reform procedure.

The wearer should ensure that the performance of the garment is not degraded by the addition or replacement of accessories not tested to EN ISO 14116.

This garment does not contain substances at levels known or suspected to have adverse effects on the hygiene or health of the user under foreseeable conditions of use.

### CARE INSTRUCTIONS

- It's recommended to wash PPE with others similar products and same colour. Close the zips before washing
- Do not use fabric softener
- Wash and iron on the reverse side
- Tumble Dry is accepted. But wire drying is recommended to extend the life of the product and save energy.
- Limited flame spread garments should be cleaned regularly and the garment should be checked after cleaning.

The performance of this article is guaranteed for up to 25 washes. To preserve the properties of your garment, please follow instructions:

	Washing up to 40°C
	Laundering prohibited
	Tumble dry. Normal Temp.
	Ironing 110°C max
	No dry cleaning

### STORAGE

Store in the original packaging, in a dry, ventilated place, away from light and excessive heat. Do not store damp or wet.

### END OF PRODUCT LIFE

This polo will be taken back at the end of its life. No dismantling is required.
